PROFILE

I am a passionate second-year IT student with a passion for leveraging technology to solve real-world challenges. Proficient in Python, Java, and HTML/CSS, with a strong foundation in programming fundamentals, database management, and web development.
Active participant in coding clubs and hackathons, collaborating with peers to tackle complex technical problems and develop creative solutions. Thrive in dynamic environments that foster innovation and teamwork.
Eager to expand skill set to include emerging technologies like cloud computing and cybersecurity. Committed to continuous learning and growth, with a keen interest in making meaningful contributions to projects at the forefront of technology.

CERTIFICATIONS
